Deadline for manuscript submissions:

28 January 2018

Message from the Guest Editors

This Special Issue is related to the 18th biannual International Gap Junction Conference (IGJC2017), which will be held at the Crowne Plaza Hotel, Glasgow and hosted by Glasgow Caledonian University, 29 July–3 August, 2017. This Special Issue, entitled “Interplay of Connexins and Pannexins in Tissue Function and Disease”, will focus on six key state-of-the-art reviews, written by leads in the field on cutting edge topics and the latest developments in clinical trials in diverse organ systems. Original articles from delegates attending the meeting are also invited to celebrate 50 years of Gap Junction Research.

Topic will include:

- Connexin communication compartments in wound repair
- Connexins and pannexins in vascular function and disease
- Role of pannexins and connexins in the nervous system
- Pannexins and connexins in cancer
- The connexin interactome
- Connexins: post-translational modifications and trafficking

Note that attendees will get a 20% discount on the publishing fee, if their submissions are published in this Special Issue.

Author Benefits

Open Access: free for readers, with publishing fees paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 22 days after submission; acceptance to publication is undertaken in 8 days (median values for 2016).
